

WITH OUR BOYS IN SERVICE

Lieutenant Colonel David H. Walker, son of Mrs. D. H. Walker, Sr., (nee Julia Finnegan) is now director of training at Wright Field, Dayton, Ohio. Colonel Walker attended the flying school at Randolph Field and Kelly Field and received his wings in 1936. He has recently returned from Ottawa, Canada, where he served as military air attaché at the U. S. Embassy there. When a boy he spent many happy vacation days with relatives in Truckee.

Signed simply, Douglas McArthur, Mr. and Mrs. George Waters this week received a letter of sincere sympathy for the loss of their son, Edwin, killed recently at Hollandia.

Ernest Fleming is now an aviation mechanics mate first class in Uncle Sam's navy. He is stationed at the naval air station at Atlantic City. Ernest is serving his second hitch in the navy and has seen much action on the water.

Mrs. Robert Tonini heard Monday from her SeaBee husband, Bob, who wrote that he is sending all his extra clothing and other baggage home as he is on the move, without excess trappings. He said he may not be heard from for a spell but still wants his mail regularly. Smooth sailing, Bob.

Lt. Addison Nelson of the navy, who has been in Rhode Island and other eastern states recently, talked to the pupils of the grammar school Monday, telling of the many historical places he has visited in his travels. Following a brief stay with his parents, Mr. and Mrs. P. R. Nelson, he continued to San Francisco Tuesday to report for more duty.

Orlan Waters, returned from San Francisco following his honorable discharge from the army and is now employed at Fontana's Laundry. How do you like that, Roy? Maybe brother Orlan is only holding down the job for you.

Lt. Douglas McDonald of the Marines has returned home after 14 months in the South Pacific. McDonald has spent several summers at Tahoe where his parents, Judge and Mrs. C. C. McDonald of Woodland have a summer home.

Pvt. Elihu J. Kearney is now located at the Amarillo, Texas, airbase, starting from the ground up, although Huey has had much civilian experience with planes. He recently left the essential work of railroading to take a more essential army task.

Six letters in a row from Gunner's Mate Jimmy Frazier of Tahoe to his parents, Mr. and Mrs. Ray Frazier at Lake Forest, tell that he has seen much action and wanted to tell them to watch the paper as they would be making news within a short time. Liberty has been spent on barren coral isle inhabited by "slant eyes" who do not like foreigners. Frazier now qualifies as a shell-back having gone through the court of Neptune when he crossed the equator for the first time. The ceremony is a combination of fun and suspense for the novices.

A brief note from Soundman Bill Marts, with the fleet, asks us to remember him to all his local friends "as I am a long way from home." Hope you will soon be home again for keeps, Bill.

Lieutenant Lavon Joseph, now in Georgia, is the proud father of a baby girl born at San Diego, May 19. The daughter weighed 5½ pounds at birth and although the christening has not been definitely settled, she may be named Victoria. Lt. Joseph left a few weeks ago for additional schooling and expects soon to see his wife and daughter.

Aviation Cadet Frank L. Titus, 22, son of Mr. and Mrs. Frank A. Titus, was recently transferred from the navy air station at Olathe, Kansas, where he completed his primary flying course, to the naval air training center at Pensacola, Florida, for intermediate flight training. Upon completion of the intensive course at the "Annapolis of the Air" Cadet Titus will receive his navy "wings of gold" with the designation of Naval Aviator and will be commissioned ensign in the naval reserve or second lieutenant in the Marine Corps reserve. Nice going, Frankie, and good luck.

Mr. and Mrs. Owen Landreth of Willow Ranch, Modoc County, have received word from their son, Owen, Jr., that he has returned to the United States and is at present in a hospital at Charleston, S. C., and expects to come further west soon. Owen, better known as Cub was injured in action December 25 while in active service in Italy and has been awarded the Order of the Purple Heart. The Landreths are former residents of Hobart Mills where Owen attended school.

Again we divert from our boys in the service to tell you of a letter we received from one of our girls in

the service. Pvt. Marilyn Hinkle of the U. S. Marine Corps, Women's Reserve, informs us she is now at El Centro, Calif., after completing boot training at New River, North Carolina and is now a gunnery instructor. She doesn't like the heat of El Centro but is glad to be back in California. She says she dreams of the day when she can again take a refreshing plunge in good old Lake Tahoe. Marilyn is the daughter of Dr. and Mrs. George Hinkle of Tahoe City.

The report received this week that Jimmy Thomas was the second Jap victim from Truckee in that bloody Pacific fight gives the folks at home a small idea of what you fellows are doing out there and in Europe. Don't think fellows, we at home will forget.

Everett Peterson of Tahoe who has been assigned to a submarine base in Alaska for nearly two years arrived home Saturday with a medical discharge and hopes to get a job at the state quarantine station at Tahoe. Everett, who enjoyed the Sierra Sun during his long term in the north, suffered back injuries in a blast which resulted in his discharge.

SPIRITED VOTING IS FEATURE OF LOCAL SCHOOL ELECTIONS

Truckee at last is evidently election minded. In one of the biggest votes ever cast here during a school election, Mrs. M. C. Hayes polled 106 votes to defeat her write-in opponent, Mrs. Dan Smith who, although unannounced and whose name was not on the ballot, received 74 votes. Mrs. Smith had been clerk of the local grammar school board for many years.

B. J. Lewis, a write-in, received 140 votes to be reelected on the board of the Meadow Lake Union High School.

RENEE HART WEDS TENNESSEE SOLDIER AT RENO SERVICE

Miss Renee Hart of Reno became the bride of Pvt. Alexander I. Alcorn of Sparto, Tennessee at a ceremony performed by Rev. J. Radeau of the Church of Christ Thursday, May 11 at 4:30 p.m. at the minister's home. Mrs. A. B. Polyanich and Miss Frances Polyanich of Truckee were present at the quiet service with John Gottardi and Mrs. Margaret Hart, uncle and mother of the bride. The party later enjoyed a dinner and the young couple left for several days at Lake Tahoe.

Mrs. Alcorn, also the daughter of the late Harold Hart, well known Truckee business man, attended the local schools and was popular with the younger group before returning to Reno.

Private Alcorn met his bride while stationed at the University of Nevada for a special course early this year. In civilian life he was personnel manager for a firm at Chattanooga.

Mrs. Alcorn will accompany her husband to his present station at Camp Cooke, Calif., when his furlough expires.

MRS. SMITH FETED AT LODGE MEETING

Mrs. Laura Smith was the special honoree at her birthday party following the regular meeting of Naomi Rebekah Lodge No. 2 Wednesday evening. Cards and gifts were presented to Mrs. Smith and refreshments were served.

CANVASS OF VOTE NOW COMPLETED

A complete canvass of the primary election vote by the board of supervisors Saturday, showed that Henry G. Loehr, successful aspirant for supervisor of the fifth district, received 193 votes and Alex Robertson, 135 votes. The absentee ballots, still uncounted, will not change the results.

Frank Rowe, incumbent supervisor in the Grass Valley district defeated C. E. Heffner 1511 to 562.

ROAD GROUP WILL VISIT IN TRUCKEE

C. Edmunds, manager of the Truckee Chamber of Commerce has received a letter from Edward M. Fennon, manager of the Sacramento Valley District of the State Chamber, announcing that a group of officials planning a highway inspection trip in the near future will meet with directors of the local chamber next Thursday evening to discuss local highway problems.

Included in the group will be Fennon, Commissioner Homer Brown, George T. McCoy, state highway engineer, C. H. Whitmore, district engineer, Howard Reamer, chairman of the regional transportation and highway committee and John Luther, director of the transportation and highway department.

My Place In The Sun

By CPL. DOUG BARRETT

Excerpts from letters from the
Canada theater of war operations

This finds me at the end of a busy but enjoyable weekend. Saturday night we had a G.I. stage show at the base—The Frosty Follies—put on by 12 guys and four gals from up the line. The show lasted for two hours and was thoroughly enjoyed by all. On all sides I heard it was the best show to hit this neck of the woods since the post was activated.

After lunch Sunday we went to a double-header baseball game in which the Yanks were trounced 11 to 1 and 15 to 5 in games with two different opponents. Methinks it was more the effects of an altogether too gay Saturday night than a natural superiority of the Canadians that beat our boys.

After dinner we all went down to the canteen and sang, danced and played bridge and cribbage. Look again—did I say bridge? A local lady and I played alike and were partners. Our erratic playing confused the opposition thoroughly and us just a little more so, so at the end of the first rubber we were decisively beaten. Then we whipped out the cribbage board and we proceeded to take three in a row—trouncings, I mean.

And so to bed.

LARGE QUANTITY WASTE FAT SAVED

Truckee housewives have been contributing generously to the waste fat campaign, according to Ben Lewis of the Truckee Meat Market who said that last week he delivered 1278 pounds of waste fat to the salvage depot in Reno. This represented an accumulation of less than five months and does not include fats turned in at the other local stores.

BEST SELLERS ARE AT LOCAL LIBRARY

Included among the best sellers at the Wyethia Club's Lending Library are the following books: Undercover by Carlson; Here is Your War by Pyle; Burma Surgeon, Seagraves; The Signpost by Robertson and Ten Commandments by Mann.

Nearly all of the most wanted best sellers are now available at the local library and the committee is keeping pace with the latest books as they are placed on the market. The library is open each Friday between 3 and 4:30 p.m.

CAMP FIRE GIRLS TO HAVE FIRST TESTS

The Camp Fire Girls met at the Women's Wyethia Club house last Monday in preparation for the council fire which will be held in two weeks when members will take their first tests as trail seekers. Parents and friends are invited to the public ceremony.

Last Friday the girls met at the home of their leader, Mrs. T. T. Buell and changed their regular meeting date to Monday.

TRANSFERS MADE IN FOREST PERSONNEL

Forest Supervisor Guerdon Ellis of the Tahoe National Forest this week announced the transfer of Nelson Stone, fire control assistant to Ranger H. I. Snider of the Truckee district to the Comptonville district as fire control assistant to Ranger Frank Meggers.

Leo Chaffield, fire control assistant on the Comptonville district transfers to Truckee in the same position.

MAYO EXPRESSES THANKS TO VOTERS

Senator Jesse M. Mayo, Calaveras County publisher and Republican nominee for Congress, Second District at the recent primary election, today issued a statement thanking the voters of Nevada County for their support. Returns for all but a few scattered precincts indicate Mayo received a majority of 1700 Republican votes and approximately 33 per cent of the Democratic votes cast.

To Portola—

Mr. and Mrs. George Moore of Oakland are here this week and made a trip to Portola with Rev. William Daly on Wednesday.

Two Boys Held For Theft After Truck Wrecked

Boys Escape Injury When Car Overturns On Highway

Two 16 year old boys, Francis J. Bishop, 1417 8th street, Sacramento, and Robert Spencer French, Box 535, Roseville, were arrested here this week by Sergeant H. B. Fowler and Officer Kennett Kolb after a stolen pickup truck which they were driving was wrecked near the quarantine station.

The boys, who were returned to Sacramento to face a grand theft charge, abandoned the vehicle after the wreck but were apprehended as they attempted to hitch hike back to Sacramento. Neither was hurt in the mishap and the truck, belonging to a Sacramento grocery store, was not badly damaged.

One of the boys was recently in the Sonoma State Home for two years. They were en route to Reno attired in cowboy outfits when they ran afoul of the law.

TRUCKEE STORE IS BEING REMODELED AND MODERNIZED

The complete modernization of D. Cabona's dry goods store and sport shop which will cost several thousand dollars is underway and the transformation will be complete about the middle of June, according to Mrs. Cabona.

Bert Dayton of the engineering department of the Walton N. Moore Company of San Francisco is supervising the work on the individually built fixtures in the rear of the store. Twice the display space will be available, according to the new plan, with many articles under glass, while the center of the store will have a series of well built counters, with big storage drawers beneath. In the new arrangements there will be three modernly equipped fitting rooms for men and women.

The local merchant is making the change to give Truckee a permanently attractive store which will be an asset to the community.

GRAND OFFICERS OF LODGES ARE NAMED

Mrs. Lee Garner of Tahoe represented Summit Temple No. 79, Pythian Sisters at the convention on May 16 and 17 and 18 which elected Mrs. Gladys Harbinson of National City as grand chief, John Hoyer, of Los Angeles was chosen as grand chancellor of the Knights of Pythias at the same time.

FIRE RULINGS ARE GIVEN FOR REGION

Supervisor Guerdon Ellis of the Tahoe National Forest has issued a declaration to the effect that a high fire hazard exists in the forest from May 22 to October 14 and makes the following restrictions:

Paragraph E prohibits the building of a camp fire on National Forest lands without first obtaining a camp fire permit; paragraph H declares smoking shall be prohibited except at camps, places of habitation and in special posted smoking areas; paragraph M says throwing of any ignited substance where it may cause a fire, and the discharge of fireworks are prohibited.

CHILDREN WARNED REGARDING TRAINS

An appeal to children to safeguard themselves by avoiding acts of carelessness around war-busy railroad cars and tracks has been issued through the public schools by the Southern Pacific Company. L. B. McDonald, vice president in charge of operations for the company, revealed today. Boys and girls who are old enough to drive automobiles, and those who ride bicycles, are urged to approach all crossings prepared to stop, and are warned against trying to "beat the train."

With Daughter—

Mrs. C. A. Gates spent the weekend with her daughter, Elizabeth, in San Francisco.

Home from Visit—

Mrs. Louise Gilman returned last week from a three months visit with her daughters in Silverton, Oregon and Tracy, Calif.

: Sun : Beams

by WALTER M. BARRETT

The cruel consequence of war was brought home to Truckee twice within the period of a week and with it came the full realization that this is no comic strip or story-book struggle, but a fight in which good men and boys are giving up their lives, and the folks at home are suffering the unforgettable pangs of sorrow. Jimmy Thomas, a clean-cut young American, filled with the joy of living and with every right to lead his own life in the way he most desired, died so that America might remain free and that our way of life can continue unimpaired by dictators and war lords, mad war-mongers, Jimmy Thomas and Ed Waters were only two of the thousands giving up their lives that the American way will continue. We dare not fail them, the living nor the dead, but must aid in their fight by our alertness and caution at home to prevent the very thing they are fighting against becoming a reality here. They want no isms and no dictators. They want—and we want—only the freedom and democracy which has made us a nation of individuals, united by a love for the things that only a true democracy can provide.

We are heartily in accord with a suggestion made this week that a bond drive be immediately inaugurated in the names of Ed Waters and Jimmy Thomas. We cannot bring them back, and our purchase of bonds will not soften the grief that accompanied the announcements of their deaths, but we can show the world that we do not take our losses sitting down. Buying bonds is a very small gesture and we hate to think of it in the same thought that we hold for those two boys, but it is one way of showing the other boys out there that we at home are backing them up at least with our money. Remember, they give their lives, we lend our money.

OFFICERS SEATED BY WYETHIA CLUB

With the exception of Mrs. E. C. Dwyer who replaces Mrs. N. F. Dolley as secretary, all former officers of the Women's Wyethia Club, were installed at the meeting last Thursday. Mrs. Dolley had resigned the position and Mrs. Dwyer was named in her stead.

Bridge and bingo occupied the afternoon and the out of town guests included Mrs. W. W. Crane and Mrs. Theodore Schlueter of Tahoe and Mrs. C. J. Wallace of Sacramento. Mrs. A. P. Leitch was chairman of arrangements. The next meeting will be held June 1 when only business matters will be the order of the day.

TRUCKEE SCOUTS AT TAHOE AREA MEET

Harvey Hocker, Bert Weeden, Martin Oroz, Andy Garcia, Everesto Dominguez and John Brandlin, as members of the Flying Eagle Patrol were presented with a B ribbon at the Tahoe Area Campo-ree held at Lake Olympia near Grass Valley May 19 and 20, following their demonstrations under the leadership of Scoutmaster R. N. Swett.

The local troop, sponsored by the American Legion, was one of 34 patrols, representing 14 troops and 216 scouts in the vicinity. A number of well known civic leaders supervised the play and spiritual needs of the boys.

NEW WINDOW WILL HONOR ENGLEBRIGHT

A new window is being installed in the Trinity Episcopal Church at Nevada City in memory of the late Congressman Harry L. Englebright and his parents. The beautiful memorial will be dedicated formally at a public service where members of the family are able to be present.

CAMPAIGN PLANNED

A two-week drive to step up Truckee's price control program will open May 29 when each one of the members of the local war price and rationing board will be asked to recruit one price panel assistant. C. B. White, board clerk announced today. He said the local campaign would be part of OPA's national drive to increase the number of price panel assistants throughout the country.

Second Truckee Boy Is Reported Killed In Action

James Thomas, 18, Killed During Action At Bougainville

For the second time within a week a dreaded war department message announcing the death of a Truckee boy, has arrived here.

Mr. and Mrs. James R. Thomas, well known local people, last Thursday received the tragic word that their 18 year old son, James Thomas, had been killed in action at Bougainville.

The young man, a private first class in the infantry, was inducted a year ago and had been in the bitterly contested Pacific area for only a few months.

The whole community was deeply shocked at the tragic news, for Jimmie was one of the popular young high school boys here and was widely and favorably known.

He is survived by his parents and an eight year old brother, Aaron, all of Truckee. The sympathy of the entire community is extended to the surviving family.

A few days prior to word of the death of young Thomas, Mr. and Mrs. George Waters had a telegram announcing the death in action of their son, Sergeant Edwin Waters who died at Hollandia, Dutch New Guinea.

CAPTAIN PETERKIN TALKS AT MEET OF TRUCKEE LIONS

Members and guests of the Truckee Lions Club last night were given a clear insight on the working of the California Highway Patrol when Lion George Peterkin, captain of the Placer area squad which operates from Sacramento to the Nevada State line and includes Truckee, gave an interesting and informative talk.

Captain Peterkin spoke of some of the experiences he has encountered during his 20 years as a patrolman and told of many duties of the patrol and what was expected of the public in cooperation.

Arvidman Mayfield reported on Ladies Night preparations. The affair will be held at Tahoe Inn and 50 have signed their intention of attending. Guests at the meeting included Sergeant H. B. Fowler of the highway patrol and Glenn Robinson a member at large from Reno.

OFFICERS ELECTED AT H. AND W. MEET

The H and W Philanthropic Club held a special meeting Monday evening, May 22, the main business of the evening being the election of officers. New officers are Mrs. Vesta Frazier, president; Roy Stark, vice president; Mrs. Lora Tackett, secretary and Mrs. Mary Robinson, treasurer.

Mrs. Alma Brown, Keene Tackett and Ray Frazier were appointed as the auditing committee.

After the meeting, refreshments were served and the group played bridge. The club will hold its next meeting on Friday evening, June 2. All members are urged to attend and visitors are welcome.

OLGA GALAN DIES AT HOME IN BAY

Local friends were saddened to learn of the untimely death of Mrs. Olga Galan, 33, in Alameda May 10, following a year's illness.

The deceased attended school at Lake Tahoe where she has many friends and following her marriage to Pierre Galan 11 years ago they continued to make their home there for some time. Mr. and Mrs. Cordian Trickey of Alameda are her parents and former Tahoe residents and Mrs. Joe King of Truckee and Kings Beach was an aunt.

NEW PATROLMAN ARRIVES IN AREA

State Highway Patrolman Thomas Sheehan of Los Angeles and Hollywood, by his own request, has transferred to the Truckee squad, replacing Patrolman L. E. Kelly who transferred back to Roseville after six months here. Sheehan's wife and two sons will come to Truckee as soon as he finds a home here for them.

USED FURNITURE SALES CONTROLLED BY CEILING

The Office of Price Administration announced today that it has been receiving numerous inquiries from consumers, dealers and individuals about purchase or sale of used household goods.

Robley E. Passalacqua, district price executive, said many individuals who have old gas stoves, bedsprings and other equipment should check with their local boards on established dollar-and-cents ceiling prices on such articles as refrigerators, washing machines, vacuum cleaners, bed springs, gas ranges, typewriters and photographic equipment. Additional new items are added whenever scarcity forces prices above a fair value, he said.

Used radios may be sold by individuals at any price, but dealers prices are based on their highest price for equivalent articles in March, 1942.

Passalacqua warned that all furniture is covered by price ceilings as

far as store operators and auctioneers are concerned.

CANNING QUOTA SPLIT TO AVERT SUGAR SHORTAGE

Housewives will get the same amount of canning sugar but it will be split into two allotments of 10 pounds per person, according to an announcement by the Office of Price Administration.

V. J. Monteverda, Sacramento district food rationing officer for 24 northern California counties, said today the new split allotment was made necessary so that all housewives will have sugar available to them for canning cherries and strawberries which are now ripening. He said the majority of applications so far have been for the full 20-pound allotment for the whole season and this has caused stocks to become depleted.

A mind conscious of integrity scorns to say more than it means to perform. —Robert Burns

ALPINE GOES JOHNSON

SACRAMENTO, May 25.—(UP)—While other California Republicans nominated Lt. Gov. Frederick Houser as GOP candidate for the U.S. senate, voters of Alpine county showed their rugged individualism by nominating state treasurer Charles G. Johnson by 18 votes to 15 for Houser.

The man who does his work, any work, conscientiously, must always be in one sense a great man.—Mulock

Facing the Future

AN INTERESTING account in the thirteenth chapter of the book of Numbers relates the experiences of a group of people who were called upon by their leader to have faith in their future. These people, the Israelites, led by Moses had in the course of their journey away from the bondage in Egypt finally reached the land of Canaan. Spies were sent ahead to find out what kind of land it was. They learned many good things about it—that it flowed "with milk and honey," and that it was a place very much to be desired. But one condition of the land loomed up as a fearful thing in the eyes of the spies. "All the people that we saw in it are men of a great stature . . . and we were in our own sight as grasshoppers," they reported.

How often we, too, belittle our capacities and are "in our own sight as grasshoppers." And how much better to recognize the truth clearly stated on page 304 of "Science and Health with Key to the Scriptures" by Mary Baker Eddy, namely this: "Divine Principle is the Life of man. Man's happiness is not, therefore, at the disposal of physical sense."

The Israelites had experienced God's care for them many times in their journey to the promised land. They had seen the barrier of the impassable sea before them and the hordes of the armies of Pharaoh behind them; but the sea had parted and the armies had perished. They had been sustained with food and clothing in the wilderness, and had been kept free from disease, through God's ceaseless providence. They had indeed proved that man's happiness and well-being are not subject to the whims of physical sense testimony but are spiritual and spiritually maintained. But now, with the end of their journey at hand, they were doubting their further guidance and protection.

The Israelites were not deserted. Even in their beclouded sense of things, when spiritual reality seemed to them to be a distant unreality, they were supplied with the help that they needed at the moment. They had Moses, the Law-giver. When they faltered, he upheld. When they were afraid of the future, he reassured them with God's gracious promises until they were able to say (Numbers 14:40), "Lo, we be here, and will go up unto the place which the Lord hath promised." History records that they did finally reach the land of Canaan and receive the fruition of their labors.

Do we ever doubt what the future holds for us, even though we have seen ample evidence of divine guidance and divine protection? The Bible designates God by many names, but none carry more comfort to the struggling heart than the name of Love. Divine Love, creative and sustaining Principle, never forsakes man. In Genesis we read, "God saw every thing that he had made, and, behold, it was very good" (Genesis 1:31). It would be as impossible for God, the divine Love that made all good, including man, to cease His care of man as for the principle of mathematics eventually to withdraw its support of the idea that two times two equals four. . . .

So today, with our future yet to be drawn into the outlines of the present, let us accept God as He is, as divine Life, Truth, and Love, and admit no other power or presence. Let us heed the counsel of the Master, Christ Jesus (John 12:36), "While ye have light, believe in the light, that ye may be the children of light." Let us recognize that God, divine Love, guards us in all our experiences and His hand is our steady guide both now and ever. Sooner or later we must accept this conclusion; let us come to it early, yea, at once. Then shall we find not only the present good, but the future filled with promise.—The Christian Science Monitor.

THE MAN AT THE KEYHOLE

by OPERATIVE WB

U. S. Senator, Sheridan Downey's impressive vote on the Republican ticket was one of the major surprises of last week's State primary election—and politicians agree that GOP Nominee Fredrick F. Houser has his work cut out for him, if he is to take Downey's measure in November. Secret of the Downey vote, our spy advises, is that labor unions in large cities have a highly-gearred, smoothly-running precinct organization, which really clicks on election day.

The special session of the State Legislature, set for June 5, will face a docket of at least a dozen issues—and is expected to run a week, or twice that in case of fireworks.

Even California's traditionally gay night life can't stand up against the inexorable law of diminishing returns when the tariff gets out of bounds. That's one of the biggest reasons California congressmen are fighting to reduce the 30 cents on the dollar excise tax levied on cabarets by the Federal Government. Night spot business has dropped from 40 to 60 per cent since the tax was levied.

SNOW OF MAY 1 NEARLY EQUALLED A MONTH BEFORE

SACRAMENTO, May 25.—(UP)—The state division of water resources today reported its snow survey showed almost as much snow in the mountains at the first of May as there was there a month earlier, and explained that cold weather in April held back the melting while prolonged periods of unsettled weather brought successive moderate snowfalls that added to the pack.

The report said melting was chiefly in the region of the snowline and that while below 7000 feet the snow-pack decreased about 15 per cent, above that mark the net result was a 5 per cent gain.

TAHOE LETTER

To the Service Men

From SWANEE

Tahoe City, Calif.
May 20, 1944

Dear Tahoeites:

I'm afraid my letter this week will be shorter than usual, as I am writing you on Saturday night, instead of Sunday. Today was my birthday and all was going beautifully, with guests invited for chicken dinner and all the trimmings, including a birthday cake, when I received a telephone call from my daughter, Phyllis at Herlong saying that my little four and a half year old grandson, Sammy Lee was critically ill in a hospital with convulsions and a fever of 106 degrees. There was danger of pneumonia it seems, with bad tonsils causing all the trouble. Of course all my beautiful birthday joy flew out of the window, with deep worry replacing it. And in the morning I plan to leave for Reno and then continue on to Herlong, but my letter to you must go in, come what may. I would much rather he were in a Reno hospital than in the army hospital out there, but I am praying he will soon have passed the crisis and be on the mend.

This is rather a poor week for news anyway, as few letters arrived during the week. Heard one interesting story about G.M. 2-c Jimmie Frazier, son of the Ray Fraziers of Lake Forest (all still breathlessly anticipating the arrival of that first baby)

who underwent the customary hazing initiation men must undergo when crossing the equator for the first time. Among other things Jimmie's friends cut off all his lovely wavy dark locks! Wonder if he's wearing a knitted watch-cap until a new crop grows out!

And from Amarillo, Texas comes word this week that Al Henry, Jr., has passed all his necessary tests with flying colors and is now eligible to begin his cadet flying training. After the long months Al put in tending the intricacies of the interior parts of those big planes, it shouldn't take him too long to learn to fly them.

Had a cheery note from Marie Henry who wrote hastily that the Henry seniors would arrive back at the lake and have the Tahoe City Garage open for business on May 28. And I for one will be happy to see the shutters come off from the Tahoe garage and will welcome the added life which their arrival will bring to Tahoe's main street. Pat will remain below, however, and continue on with her job.

Ensign Herbert Obexer, son of the Jake Obexers of Homewood, was confined to sick bay for a spell recently when he underwent an appendectomy. He has returned to San Diego and back on top of the world again.

From the bedside of Floyd Smith, Jr., continues to come good news, as the treatment being administered daily brings added strength and renewed health. His aunt and uncle, the Norman Mayfields are anxiously waiting for the time, one day soon, when they will be able to talk with him by

Sedition Trial Judge

New picture of Chief Justice Edward C. Eicher, who is presiding over America's big wartime mass sedition trial in Washington. The defendants are charged with conspiracy to undermine morale of the nation's armed forces.

TAHOE MEN PREPARE TO OPEN LUMBER YARD AT OLD SITE

TAHOE CITY, May 25.—Alec (Scotty) Donaldson and Bob Huston both widely known at Tahoe, have purchased the former site of the Edwards Lumber Company at Lake Forest, one mile north of here and will operate the yard as the Sierra Builders Supply Company, they announced this week. The property has a 100-foot frontage on the highway and is over 200 feet deep. They have been engaged securing supplies and plan to start operations in the immediate future.

Huston was formerly associated at Tahoe with the Truckee Tahoe Lumber Company and more recently with the Builders Emporium at Oakland. Donaldson was engaged in the building business in the Homewood area and has been recently at Berkeley.

The Hustons have been visiting at Tahoe as guests of the Harry Blanchards of the Bittencourt tract. They have a lovely home in the Tahoe Park area.

Both men are familiar with the building requirements of the Tahoe area and success seems assured.

telephone. Doctors of the San Diego Navy hospital feel certain now that his complete recovery is assured, providing no complications develop.

Recent visitors at the John Pingree home were Mr. and Mrs. John A. Hahn of San Francisco, Mrs. Hahn being Mrs. Pingree's daughter. Young Hahn enters the service on May 22 while his young wife, Virginia, now employed in the War Department Engineering Division in San Francisco, plans to continue on with her career and will try for her architect license in June.

Mrs. A. M. Anderson and family were thrilled on Mother's Day to receive greetings from daughter, Kathleen Starratt, via cable, despite the long miles which separate them. Kay is now stationed in the foothills of Burma where life continues more interesting daily.

Word was received last week from the former Leatrice Goss, now the wife of Sergeant Ulysses 'Les' Perry of the army air corps, and it was learned she was ready to board a train to come back to Tahoe when she learned that her husband had taken seriously ill and was confined to the hospital. Her baggage arrived at Reno some days later and had to be returned to Memphis, Tenn., where her husband is stationed. The Perrys are anticipating in August, and Leatrice plans to return to the lake to remain with her folks for a few months.

Had the extreme pleasure today to

DALE CARNEGIE

"How to Win Friends and Influence People"

DRAMATIZE YOUR IDEA!

Do you want to get somebody to do something for you? Well, there is one simple way to make this appeal. Dramatize it!

The RCA-Victor company, Camden, New Jersey, was doing war work. The company found that the greatest drawback in getting the work out was that the men and women were late of mornings. The heads of the departments went among the workers imploring them to be more prompt. The results were disappointing. The company then had speakers deliver messages on the subject of punctuality. The speakers dealt in glowing terms. Results still inadequate.

Then one of the bright boys in the advertising department thought up an idea that got action. The company had a pasteboard ruler six inches long made. A ruler was inclosed in each pay envelope. Printed on the back was this:

"Workers in one of our plants lost 172,980 minutes in one month because they were late.

"Poland was conquered in only 37,440 minutes.

"France was conquered in 44,640 minutes after the Maginot line had been broken.

"Make it a rule to be on time."

The vivid dramatization worked wonders—did more than all the lectures and pleadings. The workers could see in one glance exactly how serious were the consequences when workers were habitually late. The very next day after these cardboard rulers went into the pay envelopes, there was a decided improvement in punctuality in that plant. The company had reached its employees by dramatizing the thought for them.

The same company wanted to get its employees to turn in ideas, and a request was issued to put up notices to that effect. A few ideas straggled in. But not the quantity the company had hoped for. Then the company decided to dramatize the appeal, so it had a cardboard replica of a microscope made; about six inches long. Then in the middle of the paper microscope it fastened a penny. Printed on the paper microscope was: "A penny for your thoughts. Dollars for your worth-while suggestions." Then along the handle of the microscope was printed: "Examine your job for ideas." One of these paper microscopes was put in each pay envelope.

Ideas came in faster than they ever had before in the history of the company. Cash prizes were given for the best ideas, but what had broken the logjam was the paper microscope with its penny and the catchlines.

A few months later the company created a poster showing aviators on a raft in the South Seas. Then the catchlines: "Ideas kept Captain Eddie Rickenbacker afloat for three weeks. Your ideas will sink Hitler. Let's sink him."

More ideas came winging in.

Thomas A. Edison was troubled by the workers in his East Orange plant coming in late. One day, at five minutes after the hour, he had a sign printed and hung over the face of the clock. It said: "I am ashamed to look at you."

So if you have an idea to present, dramatize it!

COOK WITH CARE

Cooking failures are
serious nowadays

Pearl Oil
HELPS PREVENT THEM

Food scarcities make careful cooking a "must" in every kitchen this year. And that means clean steady-burning PEARL OIL to make your stove behave. Solvent Refined PEARL OIL causes none of the disagreeable odors you get with most kerosenes. It burns clean and hot and steady... there's no "creep up" to blacken your steak or burn your baking. That's because all the impurities have been "strained" out of PEARL OIL, to get rid of smoke, soot and odor and give you clear, heat-producing flame. Pearl Oil means more clean heat, for safe dependable cooking.

Tahoe Briefs

The school trustee election held in the Tahoe Lake grammar school on Friday last gave unanimous election to Raymond L. Fellows of Carnelian Bay who fills the post vacated by Henry Worden.

Two incumbent Auburn candidates Wesley R. Haswell and William D. Bethell, school trustees on the Placer Union High School board were unopposed here a total of 21 votes being cast.

The lake level on Sunday morning stood at 6227.33 with 22 CSF of water leaving the gates in town. Temperature on Sunday morning early stood at 24.

Mr. and Mrs. George Phillips are in for the summer and have opened their popular resort, Sandy Beach at the north end of the lake.

Mr. and Mrs. Howard Johnston are back at Pinecrest Resort, where repairs are being made on two of their houses which suffered considerable damage when a large tree fell during the big wind storm here last winter.

Floyd Carnell is up again after having been confined to his home for some days with a bad cold.

Mrs. Ethel Vernon was on the sick list last week, but is better as this writing.

Mr. and Mrs. Jay Greene will summer at the lake this season, Greene, a brother of Tahoe Tavern's Glenn Greene, having been engaged by E. H. Pomin to manage Pomin's Resort.

Mrs. C. W. Atherton and niece, Miss Margaret Luhrs of Fallon enjoyed a brief stay at the Atherton home in the Bittencourt Tract last week but had to return to Reno when their pet dog fell from an upstairs window and broke a leg. They took him to a veterinarian for treatment.

HANG THE DRESS; IT'S THE STEAK THAT COUNTS NOW

"My wife's dress doesn't matter but oh how I'm going to miss those steaks!"

That was the statement William T. Mobley, Acampo, made to the police when he reported the theft of property from his automobile while it was parked in Lodi.

A white and blue dress, belonging to his wife, and two round steaks were stolen, police learned.

COMMISSION MEETS

SACRAMENTO, May 25.—(UP)—The state fish and game commission will meet in room 540 of the state building here on May 25 and 26. Included on the agenda are action on land acquisition for public shooting grounds and feeding areas in the Sacramento valley and a discussion on sardine matters.

Memorial Day Messages

North Tahoe News . . .

By MADELINE GALLERANI

Mr. and Mrs. George Seymour of Sacramento were at their Brockway home for several days, leaving Sunday.

Mr. and Mrs. Charles Vanderploeg were at Brockway from Monterey and are reported to be selling their Sandy Beach place and buying a ranch at Monterey. Mrs. Vanderploeg who is a teacher, was ill during her local stay.

Mr. and Mrs. R. C. Hillman of Hawthorne spent several days at the Riola Club.

Miss Siegrid Norde of Los Angeles was at her Brockway cottage last week.

Another visitor from the southern city was Dr. Mina Robinson.

Twenty-five votes were cast for school trustee at Kings Beach and Mrs. John Gallerani, unopposed was given all 25 complimentary votes.

Marian Seebers was inspector and Dorothy O'Brien and Roland Smith were judges.

CARD OF THANKS

I wish to take this means of expressing my sincere appreciation for the fine complimentary vote given me at the school election last week. It will be my desire to justify the confidence the voters have in me.

Mrs. John Gallerani

POINTERS ON POINTS ISSUED FROM OPA

Red stamps U8, V8 and W8 in Ration Book Four will not be valid until Sunday, June 4. That's because ration book holders get 30 red points to last four weeks instead of every two. Blue-letter day comes on June 1 when five blue stamps, R8, S8, U8, and V8 in Ration Book Four become valid. All stamps are good indefinitely and each has a flat value of ten points.

IT PAYS TO ADVERTISE

"FAWNNAPPING" TO BE STOPPED BY FISH. GAME MEN

SACRAMENTO, May 25.—(UP)—The state fish and game division announced today that drastic steps will be taken to put a stop to "fawn-napping." The term is applied to the activities of well-meaning citizens who find so-called stary or lost fawns, pick them up and try to give them a home. However, the division warns, these young animals are not homeless "In 99 cases out of a hundred," said the division, "the mother is standing close by, out of sight and knows the exact location of her young one. Very few wild creatures are ever lost and by picking up these fawns a forest tragedy is perpetrated."

The Latin-American armadillo, nature's original armored car, has in common with all other mammals, hair—hidden on the underside of the bony plates.

FIRE WARNING IS ISSUED BY EXPERT

SACRAMENTO, May 25.—(UP)—California counties should lose no time in building up their volunteer fire fighting groups for service in combatting possible disastrous forest and field blazes during the hazardous summer months, according to Woodbridge Metcalf, specialist in forestry of the University of California.

Metcalf pointed out a grave shortage of volunteer fighters exists due to drafting of men for military service and labor recruiting by industries. With grain already ripening in fields, Metcalf urged farmers to take the following precautions:

Pile up trash, weeds, brush and other refuse and with permission, burn it on days when there is no wind.

Clean up trash along roads and other paths of danger.

Bury discarded bottles and broken glass.

Report fire hazards to local fire leader or fire warden.

MOTORISTS WARNED TO HAVE PROPER STICKER ON CARS

Motorists who fail to display the proper windshield sticker may have to do some explaining to their local OPA boards as the result of a second warning by Leo F. Gentner, regional OPA administrator for five western states.

Gentner revealed preparations are being made for an enforcement drive to check this type of rationing violation. He said motorists should display only one sticker on the windshield. Those with B or C emblems should not display an A sticker, Gentner said, because the B and C sticker implies that the owner also gets A gasoline.

The OPA official also warned service station operators to avoid selling gasoline to the operator of any automobile not bearing a sticker corresponding to the ration coupon used. OPA enforcement officers will seek suspension orders against stations violating this rule.

The servant of the Lord must not strive; but be gentle unto all men, apt to teach, patient.

—II Timothy 2: 24

MAS. Keep on Backing the
Attack.

**SOME OBJECT TO
LOCAL WATER PLAN**

According to a press dispatch from Sacramento, an irrigation and power plan for the area near Lake Tahoe, in both California and Nevada, has met opposition from Nevada interests. Col. Robert Hunter, district engineer of the U.S. Engineers Corps admitted at a meeting of the Sacramento Valley council of the State Chamber of Commerce.

After explaining the plan, which calls for several reservoirs, the storing of water drawn from Tahoe in Washoe Lake, and the continuance of existing power plants on the Truckee river, Hunter was asked if "everyone is satisfied with the program." "You can't satisfy all interests," he replied. "The Nevada interests would be fully satisfied if you gentlemen would be kind enough to turn Lake Tahoe over to them. But I think this plan will satisfy the most number of people."

**INSURE your future—
Save WITH WAR BONDS**

ABOVE the HULLABALOO

Put an End to 'Soft Soap'

A recent Gallup poll shows that 66 per cent of a cross section of American citizens agrees with the criticism expressed by many of our soldiers, back home from the war front, that the civilian population "does not take the war seriously enough." Dr. Gallup says: "This attitude on the part of soldiers—that the home front is not bearing its share of the sacrifices of war—may, according to some observers, lead to a sharp division between soldiers and civilians. Such division, should it develop, is looked upon by Secretary of War Henry L. Stimson as grave enough to hold in it 'the possibility of defeat.'"

To the question—"What do you think should be done about this situation, if anything?"—suggestions fall into two main categories: "One, give people a more realistic picture of war as it is at the battle-fronts. Two, impose heavier sacrifices on civilians here at home."

"Regarding the first category, voters suggest more movies with grim battle scenes, more lectures by men back from the fronts, more information in the newspapers with less sugar-coating, less suppression of bad news, more radio programs dealing with the horrors of war."

"Those suggestions dealing with the heavier sacrifices on the home front would institute a labor draft, would force people to buy more bonds and curb pleasures, even close up amusement places."

Now you don't have to bully Americans into "taking the war seriously" by labor drafts, or forced bond buying, or by curbing their pleasures. You only have to tell them how serious things are and how great the hardships our men are having to undergo at the front. There are those who have lost their sons in this war, and there are those who never know from week to week what is happening to their

boys. These people take the war seriously—and so would all Americans if they were told the unpleasant as well as the pleasant facts. But how in the name of common sense can the American people, located anywhere from three thousand to six thousand miles from the battle fronts, appreciate the hardships of our soldiers unless they are given at least some inkling of what those hardships are? Between government censorship, big town daily newspaper soft-peddling and radio wishful thinking—we here at home are led to believe that the war is just one easy success after another. We are asked to donate blood for our wounded, but according to some of these organs of information the wounded seem to be nearly always the enemy. We are asked to buy more war bonds to help defeat the enemy, but we are told that we have practically bombed Germany off the map, that they have comparatively few airplanes left, that their submarines are mostly in ruins, their armies decimated by Russians, Yugoslavs, Chinese, British and Americans. One wonders how the Germans can still fight with less than no soldiers, submarines, tanks and planes.

Why are the front pages and the air-waves always filled with glowing accounts of continuous victory while a small heading on a back page vaguely intimates that the Japanese may be gaining slightly against the Chinese in Hunan Province. The situation in China is much more than serious and the loss of China would deal a terrible blow to the Allies. But how can Americans "take the war seriously" if they are not told of these and other unpleasant facts? Why are we always being "soft-soaped"? Don't they think we can "take it"?

**APPLICATIONS FOR ANTELOPE
HUNTING MUST BE FILED
NOT LATER THAN AUG. 8TH**

Applications for antelope hunting permits must be filed with the State Division of Fish and Game at Sacramento not later than August 8, according to H. R. Dunbar, chief of the bureau of licenses. Last year over 2,500 applicants made a bid for permits, and it is expected as many hunters will make application this

year. Since only 500 permits are issued to hunt antelope each year, a drawing is held to determine to whom permits will be issued. According to present schedule this drawing will be held in Sacramento August 11. The antelope season has been set by the commission from September 8 to 17 in portions of Lassen, Modoc and Siskiyou counties.

**Politically
Speaking**

By Hennen Hackett

(United Press Staff Correspondent)

SACRAMENTO, May 25.—(UP)—Representatives of the socialist party and the American civil liberties union are attempting to have Gov. Earl Warren include in his call for a special session of the legislature on June 5 amendments to the election laws which would make it easier, or at least possible, for the socialists and other minor parties to get on the November ballot.

A delegation from the two groups this week called on Burdette Daniels, the governor's secretary, asking that amendments to the election code be included in the special call.

Observers point out that under present requirements the socialist presidential candidate's name would not be on this year's California ballot for the first time since 1896.

In 1941 amendments to the election law came into effect which require that for a new party to qualify it must either register 22,643 members or file petitions containing 266,429 signatures.

Two years later another amendment provided that existing parties would lose their places on the ballot when their membership fell below one-tenth of the total registration—about 3,500.

Norman Thomas of New York, former clergyman and perennial Socialist candidate for president and other federal offices, in a letter to the governor this week called the present California election laws the most reactionary in the country.

The Shasta county Democratic Central Committee's last-minute endorsement of State Senator Jesse M. Mayo, a Republican, over his rival incumbent Clair Engle, Democrat, Red Bluff for the second district congressional nomination is seen here as directly attributable to the controversial Table

Mountain dam which is being located near Engle's home town under recent congressional authorization.

Some of the Redding Democrats were furious over Engle's failure to have eliminated the Table Mountain dam and authorized its stead Shasta county's pet substitute project a series of dams on tributary streams.

Engle did introduce an amendment to the bill, which, incidentally, was adopted, providing for building as a so-called low level dam of around 400 feet in height and specifically prohibiting future construction of a higher level dam. And some of Engle's constituents in Tehama county didn't even like that much limitation.

Shasta county residents contend that much of their land would be flooded by either a high or low level dam and want neither. Some of the Shastans asserted that Engle had promised to sponsor the tributary dam proposal. Later, according to these assertions, it was learned Engle had made other commitments.

Unfortunately for California's junior congressman, most of the voters in Sacramento valley below Red Bluff who would be benefited by either type of dam at Table Mountain live outside Engle's second congressional district.

ARRESTS MADE BY WARDENS

BRING 5,100 FINES FOR APRIL

During the month of April a total of 137 arrests were made by wardens of the State Division of Fish and Game for violations of the fish and game code. Violators were assessed 55,100 in fines. For the same period last year 173 arrests were made, with fines totaling \$4,722.50.

Have a Coca-Cola = As you were

...a way to relax on a battleship

Have a "Coke" is a phrase that's regular Navy lingo for being friendly. It's a signal that spells out *We are pals*, aboard a battle-wagon as ashore. From Atlanta to the Seven Seas, Coca-Cola is spreading the custom of the pause that refreshes,—has become a symbol of happy comradeship in many lands.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY
Coca-Cola Bottling Co. of Truckee, Calif.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".

From Bowman—
Mr. and Mrs. Willis Hevel have returned from Bowman to Tahoe.
On Business—
Charles R. Ingram, county welfare director, was a business visitor here Monday from Nevada City.
Board Man Here—
